Technology **Fast 500**
2022 NORTH AMERICA

Deloitte.

Technology Fast 500 provides a ranking of the fastest-growing technology, media, telecommunications, life sciences, and energy tech companies—both public and private—in North America. The Technology Fast 500 award winners for 2022 are selected based on percentage fiscal year revenue growth during the period from 2018 to 2021.

In the company's own words

"We're extremely proud to receive Deloitte's Technology Fast 500 award for the third year in a row, celebrating our consistent explosive growth rate," said Mickey Bresman, CEO of Semperis. "But more than that, we're celebrating all the amazing people working day in and day out to keep our customers safe from the ever-increasing, sophisticated identity-based cyberattacks. A profound thanks to our customers and partners, as we highly appreciate the partnership and remain committed to earning your continued trust. While expanding tremendously to serve a very diverse set of industries around the world, our company mission remains unchanged: to be a force for good. As organizations continue to prioritize identity threat detection and response, Semperis will be there driving cutting-edge innovation."

About Semperis

For security teams charged with defending hybrid and multi-cloud environments, Semperis ensures the integrity and availability of critical enterprise directory services at every step in the cyber kill chain and cuts recovery time by 90%. Purpose-built for securing hybrid Active Directory environments, Semperis' patented technology protects over 50 million identities from cyberattacks, data breaches, and operational errors. The world's leading organizations trust Semperis to spot directory vulnerabilities, intercept cyberattacks in progress, and quickly recover from ransomware and other data integrity emergencies. Semperis is headquartered in Hoboken, New Jersey, and operates internationally, with its research and development team distributed throughout the United States, Canada, and Israel.
